

Mind Sprint Edition

Date: 5 Sept to 7 Sept 2025

# FRAMEDSOUL

- turning photography to decor

**Creators:**  
**Jigar Sakhia**  
**Priyansh Sukhadia**

# PROBLEM STATEMENT

Design a platform for sharing or renting household tools and equipment to promote a circular economy.

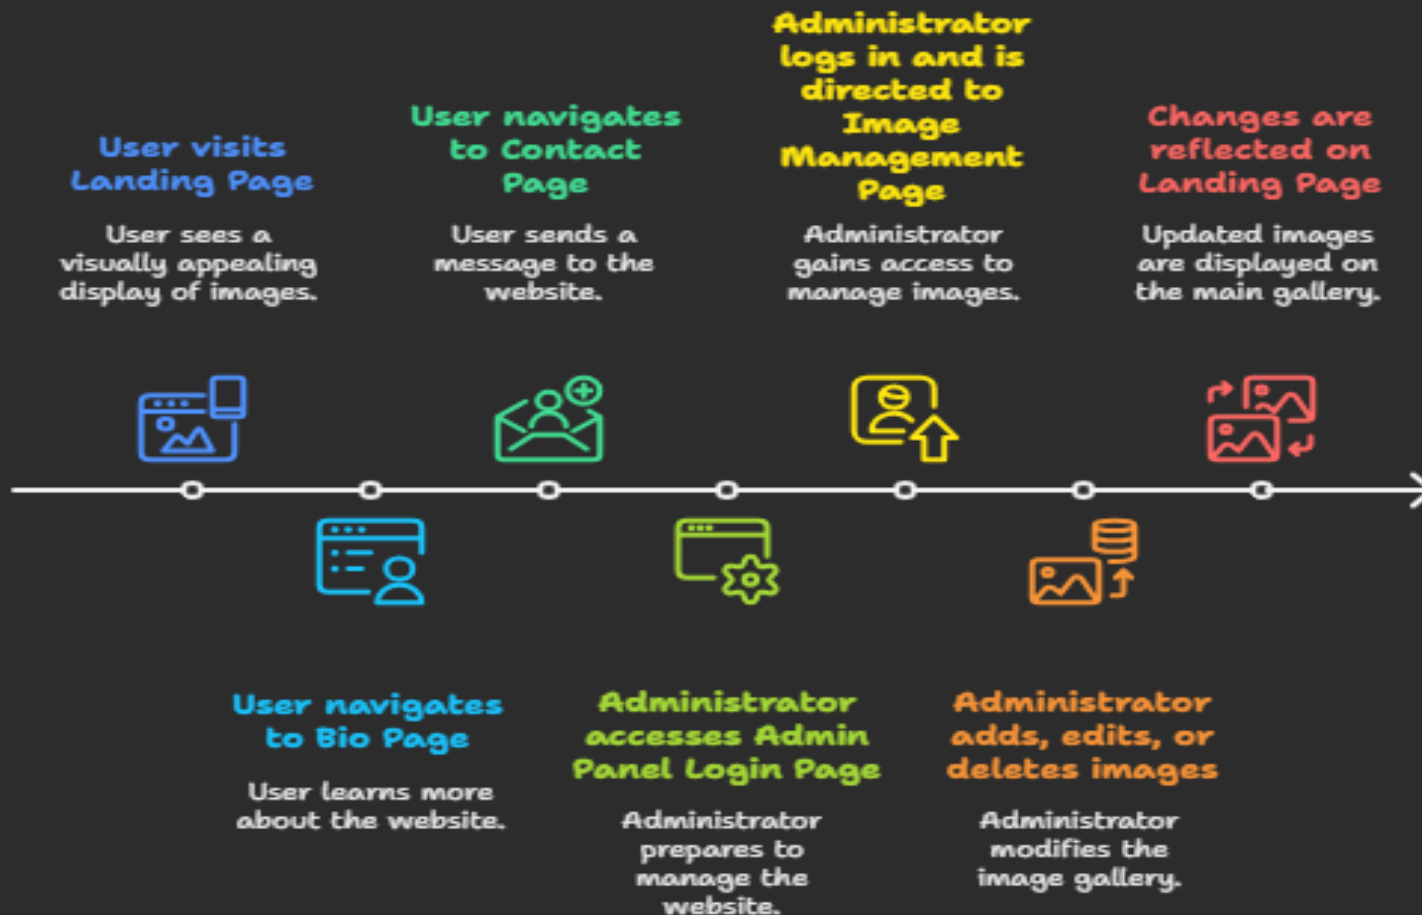

- ***Our Interpretation:*** We re-imagined the circular economy not just in tools, but in creative works- where photos are reused and transformed into décor.
- ***Website Link:*** <http://framedsoul.hivizstudios.com/>

## ***WHY WE BUILT THIS***

- Photography is more than images — it tells stories and captures emotions.
- Many beautiful photos often stay unseen in digital galleries.
- We wanted to give photography a real-world presence by turning it into décor.
- Creating framed memories helps preserve lifetime moments in tangible form. Thus, due to this reason our site is named as FramedSoul.
- It just boosts the importance of photography among people and give a chance to several skillful photographers to earn and achieve fame through their clicks.

## Website Navigation and Image Management Flow

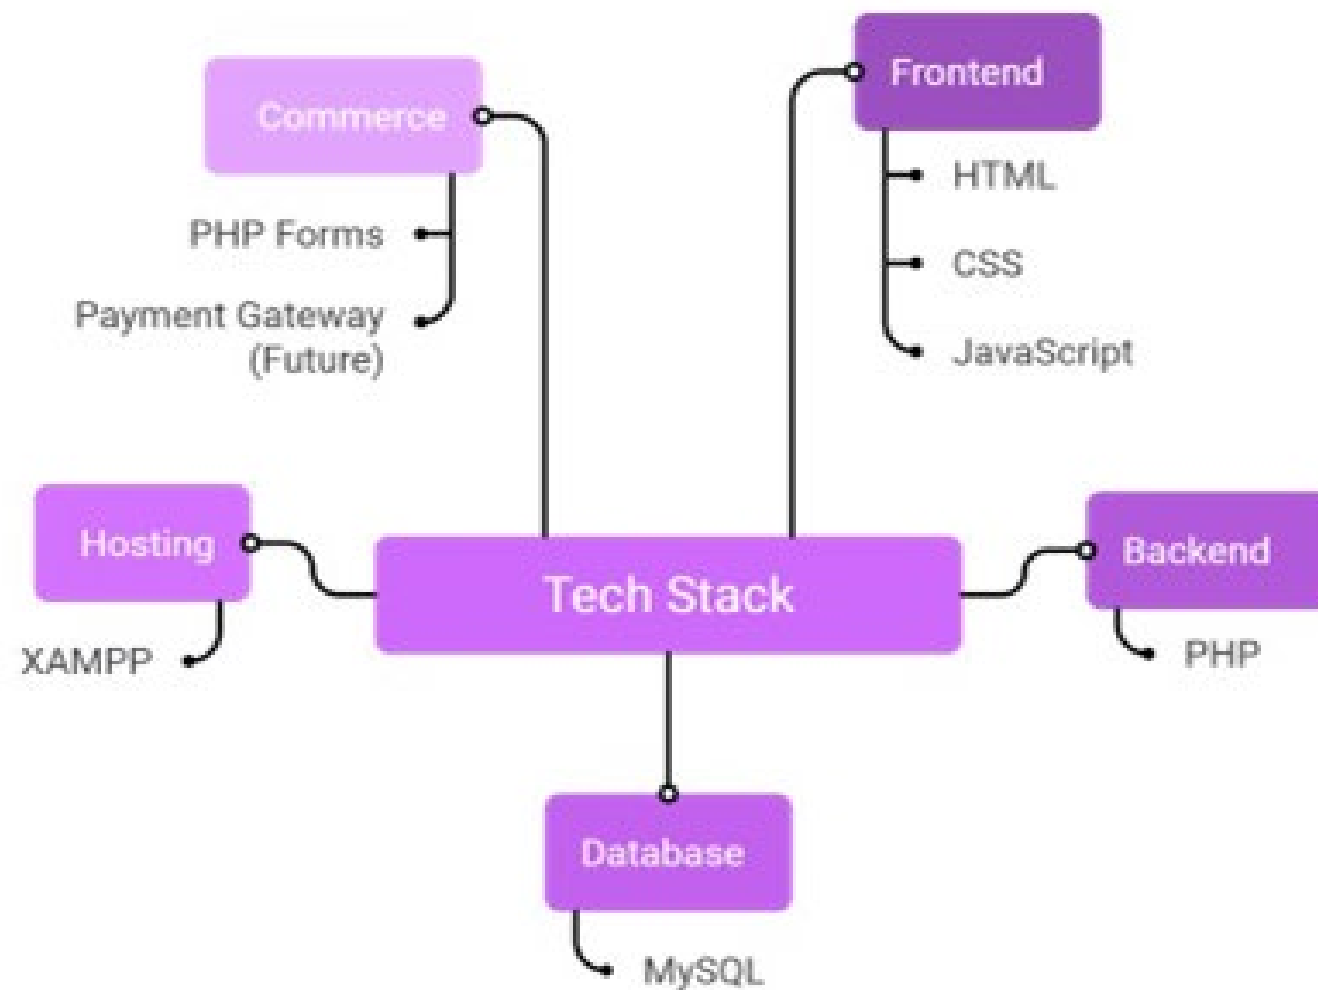

# ***WHAT OUR PROJECT DOES***

- Showcases the best of our clicked photographs.
- Allows users to purchase our photographs through email or direct messages.
- These photographs are then converted to creative home-décor photo frames.
- Ensures a user-friendly experience.

**Thus building a vibrant community of photographers and art lovers.**

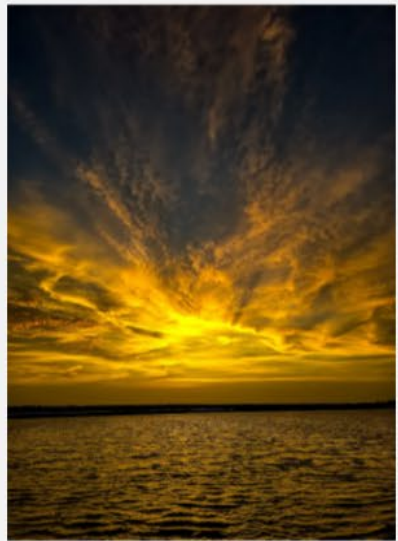

# DEMO WALKTHROUGH

## About Jigar

Welcome to FramedSoul, where every photograph tells a story and captures a moment frozen in time. I'm Jigar, the photographer behind this collection of memories and emotions.

My journey with photography began with a simple belief: that every moment, no matter how fleeting, holds beauty worth preserving. Through my lens, I strive to capture not just images, but the souls of the moments I encounter - the quiet contemplation of a sunset, the raw energy of urban life, and the subtle beauty found in everyday scenes.

Each photograph in this collection represents more than just a visual record; it's a piece of my soul, a fragment of time that moved me enough to preserve it forever. I hope that as you browse through these images, you can sense not only what I saw, but also what I felt in those precious moments.

Photography, for me, is about connection - connecting with the world around us, with the emotions within us, and ultimately, with each other through the universal language of visual storytelling.

Thank you for taking this journey with me through FramedSoul. May these images bring you the same joy and wonder they brought me when I first captured them.

# ***CHALLENGES FACED***

- Image Upload & Storage – Managing high-quality photo uploads and keeping storage optimized.
- UI/UX Balance – Designing a clean, aesthetic website while keeping it functional and user-friendly.
- Purchase Flow – Setting up a smooth process for buyers (email requests, confirmations).
- User Permissions – Handling access control for photo owners vs. buyers.
- Time Constraints – Building a full website in limited hackathon time.

# ***LEARNING AND GROWTHS***

- Technical Skills – Gained deeper knowledge of PHP, MySQL, and handling file uploads securely.
- Design Thinking – Learned to balance website aesthetics with smooth functionality.
- User-Centric Approach – Understood the importance of making the buying flow simple and intuitive.
- Practical Problem-Solving – Tackled challenges like permissions, storage, and performance.
- Hackathon Experience – Improved teamwork, time management, and rapid prototyping.

# ***FUTURE ROADMAP***

-  Secure login and user verification
-  Payment gateway integration
-  AI recommendations (tools or art)
-  Geo-based tool availability
-  Mobile app version

# CONCLUSION

***FramedSoul*** is more than a website—it's a movement !

It transforms personal creativity into meaningful décor while fostering a community of creators and buyers.
